

# Why ESCO's Love **FRIGITEK**

## EVAPORATOR FAN CONTROLLERS

### Packaged Savings

- **FRIGITEK** gives Energy Service Companies (ESCOs) a packaged way to save substantial energy for clients with refrigerated rooms.

### Retrofit Applications

- **FRIGITEK** is pre-engineered for retrofit, making Frigitek economical for existing systems, with excellent ROI's.

### Universal Solution

- **FRIGITEK** has models for every nearly every type of evaporator motor, making it a universal solution.

### Approved by CA Utilities

- **FRIGITEK** energy savings are easy to predict. Our savings calculations are approved by major California utilities.

### Improves Operations

- **FRIGITEK** maintains full refrigeration system capacity, and improves working conditions. Client acceptance is assured.

### Better than VFDs

- **FRIGITEK** avoids the risk and restrictions of variable frequency drives.

### Easily Installed

- **FRIGITEK** can be installed by most experienced electricians and mechanics without special training.
